

A key management software program is essential for any type of organization.

by

KeyWizard® by Yale® was designed to provide a user-friendly tool for facility end users to track detailed information concerning their keying system. It offers improvements over existing key management software by utilizing clutter-free and easily navigated screens. This system uses a Microsoft® Outlook® type of layout.

Key control for a facility is maintained by adopting a complete system of policies, procedures, record keeping and specialized products. A comprehensive key management software program is one aspect of the complete key control system.

KeyWizard by Yale provides accurate information concerning keys, key holders, hardware locations, master key systems, overdue keys and maintenance service schedules, all of which can be customized.

Features:

- * Free technical support and free software upgrades for one year
- * Customized query, report and search capability
- * Comprehensive hardware listings for door locations
- * Displays keyholder photos and signatures for verification
- * Clear, easy-to-read screens
- * Automatic reminders for maintenance, back-ups and overdue keys
- * Network and stand-alone versions available
- * Accurate key symbol sorting
- * Key authorization tracking
- * Customized key receipts and authorization forms
- * Tracking of loaned keys and key deposits
- * Stores maintenance service history records
- * Can manage multiple end-users and multiple key systems for all manufacturers
- * Importing of key systems, keyholders and locations
- * Exporting of key systems and locations
- * Global key search across multiple master key systems
- * Multi-level password protection
